

# GA-306 SS

**Well adapted to the Northern Great Plains and Inter-Mountain West**

### Features

GA-306 SS has outstanding persistence and produces high yields. GA-306 SS has the ability to put out a fibrous root system when conditions are wet, has salinity tolerance, and is ideal for heavy ground. GA-306 SS was selected to withstand heavy wheel traffic at harvest. GA-306 SS is very eye appealing with a medium green foliage. This is a long-term alfalfa variety, ideal for the dairyman or producer who wants quality and exceptional yield.

### Agronomic Characteristics

Winter Survival.....	1.8
Recovery Rate.....	Very Fast
Wisc. Disease Rating.....	30/30
Leaf to Stem Ratio.....	Excellent
Fall Dormancy.....	3
Bacterial Wilt.....	HR
Verticillium Wilt.....	HR
Fusarium Wilt.....	HR
Anthraco nose.....	HR
Phytophthora .....	HR
Aphanomyces Root Race 1.....	HR
Aphanomyces Root Race 2.....	MR
Stem Nematode.....	MR
Pea Aphid.....	HR
Spotted Alfalfa Aphid.....	HR
